

Data Compression using Huffman's algorithm

Cătălin Chiriță

May 2020

1 Introduction

This project was a bit strange to do but i manage to finish it after understanding what was asked of me to do.

2 The Algorithm

“Hatred is gained as much by good works as by evil.”

- Niccolò Machiavelli showing me how to do the project.

Made it in CLion. I left comments in the code to show you what i did.

3 Conclusion

I hope my solution is satisfying at least.
